

Release Notes: Aspera Cargo 1.6.1

Product Release: July 14, 2017

Release Notes Updated: April 16, 2018

WHAT'S NEW

Welcome to this release of IBM Aspera Cargo. Cargo 1.6.1 is a maintenance release.

ISSUES FIXED IN THIS RELEASE

ASCR-24 - When you upgrade to the current version of Cargo, your existing **asperacargod.conf** file is retained, using the same filename. The installer program also installs a new blank configuration file, **asperacargod.conf.new**.

SYSTEM REQUIREMENTS

Your Faspex server must have a license enabled for Cargo.

Linux: Linux 32- or 64-bit system (GLIB 2.9 and higher). Ubuntu 10.04+, RHEL/CentOS 6.0+, SUSE Linux Enterprise server 11 (x86_64) with kernel 3.0.13-0.27-default, OpenSUSE 12.2 with kernel 3.4, or Debian 6.0+.

Mac OS X: 10.8 or higher; Intel only

Windows: XP, Vista, 7, 8, 10

Note: After installing Cargo, you must edit the Cargo configuration file. For details, see the [Aspera Cargo User Guide](#).

KNOWN ISSUES

ASCR-25 - [Mac OS X only] The Cargo uninstall script can erroneously be run without the **sudo** command.

PRODUCT SUPPORT

For on-line support resources for Aspera products, including raising new support tickets, please visit the [Aspera Support Portal](#). Note that you may have an existing account if you contacted the Aspera support team in the past. Before creating a new account, first try setting a password for the email that you use to interact with us. You may also call one of our regional [support centers](#).
