Shares 1.9.14 Patch Level 2 for Windows

Operating Systems: Windows
Date: 4/24/2020

This patch includes the following fixes:

Patch Level 2 Fixes

Jira Issue	Description
AS-420	User input forms require increased security.
AS-419	When browsing files, clicking **load more** truncates the current list of files instead of showing more files.

Patch Level 1 Fixes

Jira Issue	Description
AS-411	The footer does not show the current patch level.
AS-409	Shares health check does not work.
AS-402	Shares constantly attempts to restart StatsCollector service.
AS-397	Users with only Upload permissions cannot upload files.
AS-395	Bookmarks created from the bookmark drop-down menu do not work.

PATCH INSTRUCTIONS

Applying the patch for Linux systems:

1. Download the patch file (`IBM_Aspera_Shares_1.9.14_Linux_Patch_Level_2.zip`) and unzip it.

2. Make sure to back-up all the files in the shares folder (`C:\Shares`).

3. Run the following command to replace existing files with patch files:

   a. Go to **Control Panel > Administrative Tools > Services**.

   b. Right-click on any services with 'IBM Aspera Shares' in the name and select **Stop** from the menu.

4. Replace existing files by copying patch files to appropriate directories in `C:\Shares\www` .

5. Restart the Shares services that were stopped in Step 4 to enable the feature:

   a. Go to **Control Panel > Administrative Tools > Services**.

   b. Right-click on any services with 'IBM Aspera Shares' in the name and select **Start** from the menu.
