----------	--- ------------------

PATCH INSTRUCTIONS

Applying the patch for Windows systems:

1. Download and extract the patch file (`IBM_Aspera_Shares_1.10.0_Linux_Patch_Level_2.zip`).

2. Back up all the files in the (`C:\Shares`) folder.

3. Stop all Shares services with patch files:

    a. Go to **Control Panel > Administrative Tools > Services**.

    b. Right click each 'IBM Aspera Shares' service and select **Stop**.

4. Run the following command to replace existing files with patch files:

    a. Replace existing files by copying `src` patch files to the appropriate directories in the Shares folder (`C:\Shares\www`).

    b. Replace existing files by copying `lib` patch files to the appropriate directories in the Shares folder (`C:\Shares\statscollector`).

5. Remove the previous version of JQuery-UI: (`C:\Shares\www\public\javascripts\third-party\jquery-ui-1.12.1`)**(Optional)**

6. Restart all Shares services:

   a. Go to **Control Panel > Administrative Tools > Services**.

   b. Right click each 'IBM Aspera Shares' service and select **Start**

7. Check the patch level number listed in the footer to confirm the patch was installed correctly. (beneath the version number).
