

IBM[®] Rational[®] System Architect 11.4.2.2 iFix 1

Release Notes

January 2013

© Copyright IBM Corporation. 1986-2013. All Rights Reserved.

Any reproduction or distribution of this work is expressly prohibited without the prior written consent of IBM Rational.

Scope

This iFix updates IBM Rational System Architect 11.4.2.2.

Hardware/Software Information

The hardware and software requirements for this iFix are described in the 'Installing and upgrading Rational System Architect' section of the Rational System Architect Information Center:

http://publib.boulder.ibm.com/infocenter/rsysarch/v11/topic/com.ibm.sa.saxt.install.guide.doc/topics/t_ovwinstrsa.html.

Getting Started

Review the information below for this IBM Rational System Architect iFix.

Installation Information

Prerequisite

Rational System Architect 11.4.2.2.69 must already be installed on the machine in which you are installing this iFix.

Licensing

No licensing changes are required to install this iFix.

Installation Instructions

Note: [Release_Location1] is the Rational Products installation directory. This is typically for 32 Bit OS C:\Program Files\IBM\Rational and for 64 Bit OS C:\Program Files(x86)\IBM\Rational.

- 1) Close System Architect.
- 2) In the [Release_Location1]\System Architect Suite\System Architect directory, rename the following files:

```
sa2001.exe  
saadoio.dll  
sadesign.dll  
XStr_409.dll
```

- 3) Unzip the RSA_11_4_2_2_SA_iFix1.zip file to the [Release_Location1]\System Architect Suite\System Architect directory.
- 4) From the [Release_Location1]\System Architect Suite\System Architect\Support directory, run the file SAReg.exe. **Note:** On Microsoft Windows Vista and above, right-click on the file and select **Run as Administrator**.
- 5) Restart System Architect.

Product Documentation

Rational System Architect product information is available at http://www-947.ibm.com/support/entry/portal/Overview/Software/Rational/Rational_System_Architect.

Rational System Architect documentation is in the Information Center at <http://publib.boulder.ibm.com/infocenter/rsysarch/v11/index.jsp>.

Compatibility Issues

This section describes any compatibility issues that could arise from use of this iFix.

With Rational Products

This iFix does not introduce any compatibility issues with other IBM Rational products.

With Third-Party Products

This iFix does not introduce any known compatibility issues with third-party products.

Defects and Changes

Core Defects this iFix fixes

Change Request	APAR	Category	Description
70659	PM62773	SA-SAXT	Properties aren't sorted correctly as Updater in SAXT
72454	PM75341	SA-Usability-Parent-Child Links	Select child diagram navigation while the "Properties Pane" is open results in all menus to fail in Rational System Architect
72586	PM76518	SA-SAXT	SAXT SUBREPORTS are not in the same order specified in RPT file
72948	PM79218	SA-RepresentationalConsistency	Poor performance when working with SV1 diagrams in SA 11.4.2.1
72575		SA-PropertyPane	The Properties pane always displays "There are no items currently selected" when selecting a definition in the Explorer, or a defined symbol on a saved diagram
73037	PM80365	SA-DefinitionEditor	Removing relationship leaves inconsistent data on workspace
73038		SA-Matrices	After removing the matrix intersection (mark 'X'), in the reference view the role relationship is NOT removed.

Files Updated or Added by this iFix

[Release_Location1]\System Architect Suite\System Architect\

sa2001.exe
saadoio.dll

sadesign.dll
XStr_409.dll

Note: [Release_Location1] is the Rational Products installation directory. This is typically C:\Program Files\IBM\Rational (for 32 Bit OS), C:\Program Files(x86)\IBM\Rational (for 64 Bit OS)

Additional Information

None
