

APAR: IV55235

Symptom:

The infocenter refers to an incorrect RaPM installer .zip/.tar files also the installation instructions refers to 'security_modeling_schema_modify_oracle_1.1.0.1.sql' which does not exist for RaPM direct FP0002 installer.

Documentation Changes:

Following Documentation Changes to be incorporated to IBM Security Role and Policy Modeler Infocenter under following sections:

1.FIRST_SECTION:

IBM Security Identity Manager > Previous versions > Identity Manager 6.0 > IBM Security Role and Policy Modeler > Installing > Postinstallation tasks > Creating the database schema

LOCATION_URL:

http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.security.modeling.doc_1.1.0.2/tsk/tsk_install_create_schema.htm

Documentation changes required in 'Creating the database and schema for a DB2 database' procedure step number 5.

<Infocenter_Update>

5. Modify the IBM Security Role and Policy Modeler DB2 database schema. Run one of these commands only if you are upgrading the IBM Security Role and Policy Modeler from any previous version:

</Infocenter_Update>

LOCATION_URL:

http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.security.modeling.doc_1.1.0.2/tsk/tsk_create_schema_db2_non_admin.htm

Documentation changes required in 'Creating the database and schema for a non-administrator DB2 database user' procedure step number 7.

<Infocenter_Update>

7. Modify the IBM Security Role and Policy Modeler DB2 database schema. Run one of these commands only if you are upgrading the IBM Security Role and Policy Modeler from any previous version:

</Infocenter_Update>

LOCATION_URL:

http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.security.modeling.doc_1.1.0.2/tsk/tsk_install_create_schema_oracle.htm

Documentation changes required in 'Creating the database and schema for an Oracle database' procedure step number 8.

<Infocenter_Update>

8. Modify the IBM Security Role and Policy Modeler Oracle database schema. Run one of these commands only if you are upgrading the IBM Security Role and Policy Modeler from any previous version:

</Infocenter_Update>

2. SECOND_SECTION:

[IBM Security Identity Manager](#) > [Previous versions](#) > [Identity Manager 6.0](#) > [IBM Security Role and Policy Modeler](#) > [Installing](#) > [Installation tasks](#)

LOCATION_URL:

http://publib.boulder.ibm.com/infocenter/tivihelp/v2r1/topic/com.ibm.security.modeling.doc_1.1.0.2/sk/tsk_install_starting_installation_wizard.htm

Documentation changes required in 'Starting the installation wizard' procedure step number 2.

<Infocenter_Update>

If you downloaded the installer files, extract the contents of the archived files. Open the folder disk1.

If you are upgrading the IBM Security Role and Policy Modeler to FP0002 from any previous version:

- Windows operating system 32-bit:

Extract the contents of the compressed file:

1.1.0.2-ISS-RAPM-FP0002-win32.zip

- Windows operating system 64-bit:

Extract the contents of the compressed file:

1.1.0.2-ISS-RAPM-FP0002-win64.zip

- UNIX, Linux:

Extract the contents of the compressed file:

tar -zxvf 1.1.0.2-ISS-RAPM-FP0002-lnx64.tar.gz

tar -xvf securitymodeler_fp_1102_201209151042_linux64.tar

- AIX operating systems:

Extract the contents of the compressed file:

gunzip 1.1.0.2-ISS-RAPM-FP0002-aix64.tar.gz

tar -xvf securitymodeler_fp_1102_201209151042_aix64.tar

If you have downloaded the IBM Security Role and Policy Modeler direct FP0002 installer:

- Windows operating system 32-bit:

Extract the contents of the compressed file:

SRPM_1.1.0.2_FOR_WIN_32BIT_ML.zip

- Windows operating system 64-bit:

Extract the contents of the compressed file:

SRPM_1.1.0.2_FOR_WIN_64BIT_ML.zip

- UNIX, Linux:

Extract the contents of the compressed file:

```
tar -xvf SRPM_1.1.0.2_FOR_LINUX_64BIT_ML.tar
tar -zxvf ibm_security_role_and_policy_modeler_linux64.tar.gz
tar -xvf securitymodeler_1102_201209151042_linux64.tar
```

- AIX operating systems:

Extract the contents of the compressed file:

```
tar -xvf SRPM_1.1.0.2_FOR_AIX_64BIT,_ML.tar
gunzip ibm_security_role_and_policy_modeler_aix64.tar.gz
tar -xvf securitymodeler_1102_201209151042_aix64.tar
```

</Infocenter_Update>
